RASTONI [ΡΑΣΤΩΝΗ]

The absolute relaxation... a stage before zen.

The senses work in full, but the movements are distinguished by a great deal of indolence. A period of free time, returning to your childhood house and memories.

It is above all this delightful rest that, if it had a musical background, it would be the sound of cicadas, while resting on the bed reading a book and watching the picturesque Greek island views.

HERMIS LUSTRE LARGE PEARLS

We create jewellery with the idea that every piece is timeless and can be passed down through generations. Our designs illustrate our passion for history and culture, taking inspiration from Antiquity, mythology and Greek island life.

MOTHER PEARL LAYERED
